

### **New water rates went into effect on July 1, 2011**

[For details on rate changes, click here.](#) While the water Capital Improvement Program (CIP) charge will remain unchanged, all other water charges including monthly service charge, fire service charge, and consumption rates will increase. The average residential monthly service charge increased by only \$1.23 and the residential consumption charge increased by only \$0.12 for Tier 1 usage and \$0.13 for Tier 2 usage. This would increase an average residential water bill by \$3.15, based on current conservation efforts and goals. For additional water rate and regulation information please visit the City Website at [www.covinaca.gov](http://www.covinaca.gov)
